hand made felted wool scarves

We've all been feeling the fires ... From the yucky smokey (now much better... yeah! In time for Gratitude Day!) air, to a heightened compassion for others. My silver lining has been spending deep family time. My daughters, Diva and doggie Nico, Shaye and Kobe

(yep! that's my new grandson's name), and I, left the Bay Area last week (saving those little lungs) for a road trip in search of "greener" air.

We visited our family/friends in Monterey, Craig, Bodhi and Boon -- that's Bodhi wearing his favorite shirt designed by Ricki of Citron, using Romio's sacred art (it's a limited edition but there are still a few left in men's and women's styles). Fun, sweet moments ...

And now we're at my cousin Ross' in Bear Valley, where we are

having very sweet family time (and stretching to live with each others needs ;). Being with Ross (who we all LOVE), welcoming us with such love and care, and with each other, has been a beautiful blessing.

May you all find silver linings and community love.
