PS The new shop [Outback x Library](#) ([instagram](#)) opening in the New Year.

Besides many unique vintage pieces and Outback store recycled, we have a beautiful retrospective of over 500 pcs of Outback samples from the 80's and 90's. We designed thousands of pieces though, so we are missing many styles ... do you have any that could be brought in for trade credit or borrowed for the retrospective? Also accepting other lines of your Outback bought clothing for credit.
