Protocols for opening

You may not agree with these but we need to do our best to protect our staff of Hostesses and Stylists (most elder).

- **Everyone** will wear masks and hand sanitize when entering with hand sanitizer or disposable gloves (provided).
- We have air purifiers purported to remove viruses in the dressing room, and one in the main room, and we are limiting the number of people at a time so each has their own space to physical distance approx 6+ft. Everyone please honor each other's space.
- We will be putting clothing that has been tried on but not purchased, away, and then steamed (sanitizing) before they get put back out. Even though the CDC says that it is highly unlikely for clothing to hold or pass the virus.

- And we will be frequently wiping down high traffic surfaces and washing our hands regularly.
- We will have signs, as well as alerting people, to physical distance, wear a mask, use hand sanitizer. Essentially keeping everyone conscious of making it a safe space for all.
